about 550 registrants from 51 different countries attended the seventh ottawa conference on medical education and assessment in maastricht we received 525 abstracts for the conference divided in thematic poster sessions and platform presentations organising the conference was an honour and we tried to meet the

high standards of a friendly and relaxed atmosphere which has characterized previous ottawa conferences during and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers although we felt that our editorial task was not quite finished we nevertheless decided to include these papers we thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests we are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education the editors want to thank jocelyn flippo berger whose expertise with desk top publishing and perseverance was a great help

this fully up to date book is designed specifically for candidates preparing for the primary frca structured oral examination incorporating the new exam structure and syllabus sample questions accurately reflect the examination while model answers are systematically structured with definitions and classifications and illustrated with essential diagrams and graphs the books provide clear and concise explanations to key scientific concepts and problem based answers to clinical scenarios this second part contains questions on pharmacology critical incidents and special patient groups packed with new guidelines fundamental topics that are poorly covered in other main texts and current hot topics this book and its companion the primary frca structured oral examination study guide 1 are the definitive revision aid to the primary frca but will also be of value to candidates preparing for the basic science component of the final frca as reference source for qualified anaesthetists and as a text for tutors preparing candidates for the structured oral examination soe part two of the definitive primary frca structured oral examination revision aid with sample questions model answers and problem based answers to clinical scenarios

the primary frca structured oral examination study guide 2 pharmacology and clinical topics third edition provides answers to the questions regularly posed by the frca examiners the key information to succeed in the primary frca examination has been collated and is delivered in a relevant and user friendly layout making exam preparation easier fully updated and revised with new chapters covering sedative agents pre eclampsia toxaemia obstetric haemorrhage key features that have aided readers of earlier editions have been expanded and the visual spider diagrams now include drugs to treat asthma dexmedetomidine and oxycodone this new edition together with its companion the primary frca structured oral examination study guide 1 physiology and physics third edition continue to be the definitive revision aids to the primary frca structured oral examination these model answers to the rcoa sample questions present complex topics in a structured format allowing information to be retained and exam revision to be focused
